Steps involved in Vastu Planning

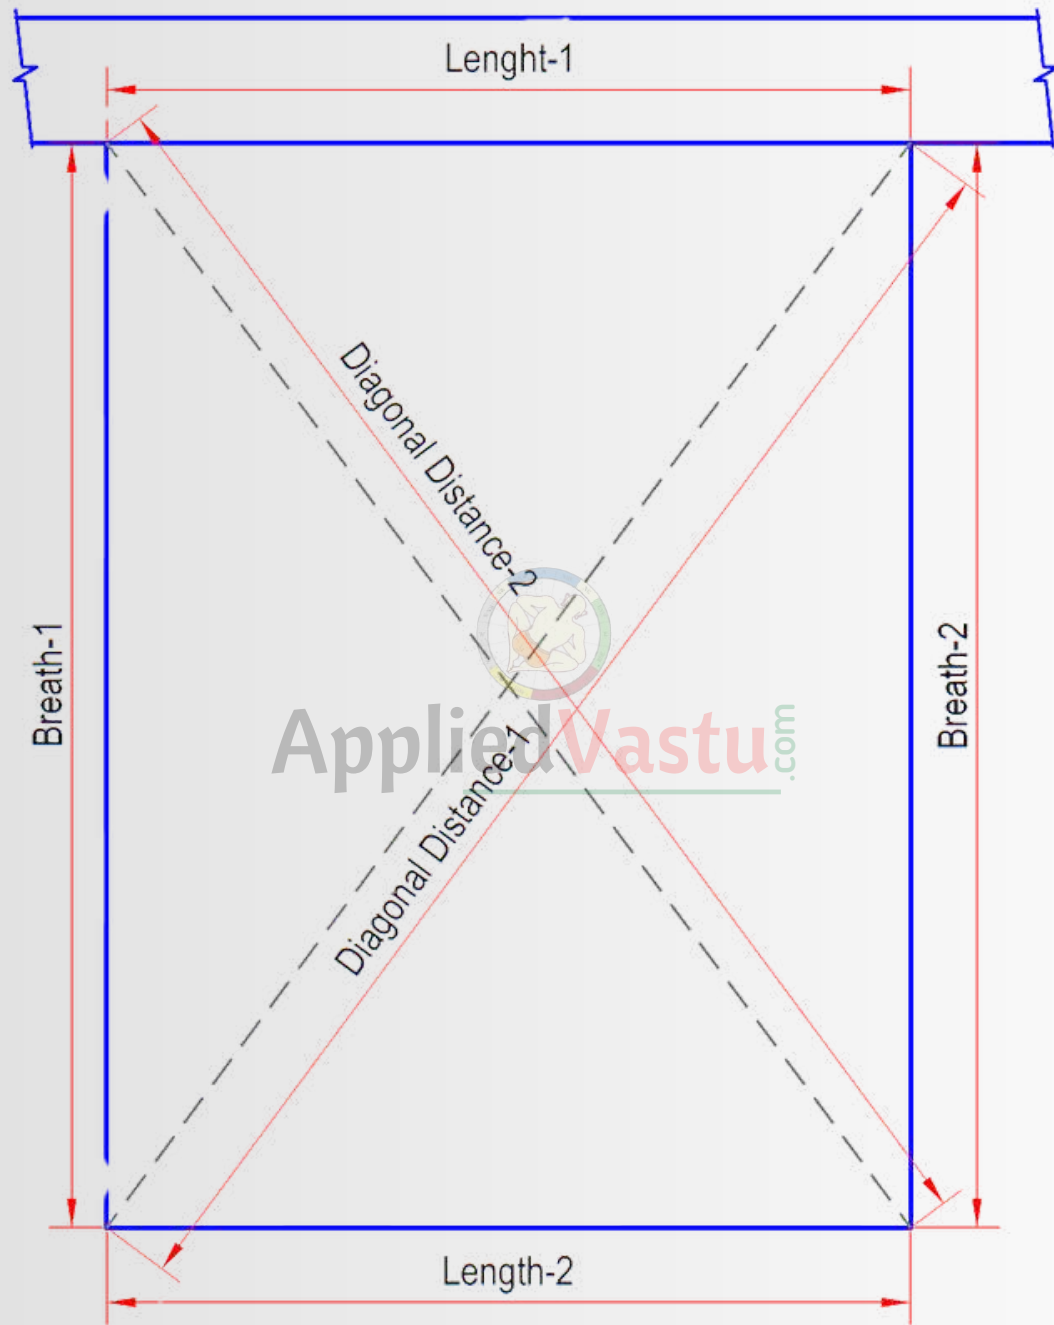

Here are the 19 steps involved in Vastu planning and design

1. Preparation of land boundary drawings.
2. Determination of directions using Google Maps.
3. Preparation of Astro-Vastu charts.
4. Calculation of Ayadi.
5. Understanding the client's requirements.
6. Casting of the Vastu Purush Mandala with Marma points.
7. Fixing the location of the main door.
8. Preparation of initial sample drawing (Sample-01) for client review.
9. Discussion with the client and making necessary modifications.
10. Preparation of subsequent sample drawings (Sample-02, Sample-03), typically involving 5-6 rounds of modifications and discussions for finalizing the Vastu layout.
11. Preparation of the next floor plan similar to the ground floor plan.
12. After finalizing all floor plans, placing columns as per Marma Sthaan.
13. Preparation of the foundation layout.
14. Preparation of structural drawings.
15. Placing interiors / Furniture as per Vastu.
16. Choosing internal wall colors according to Vastu principles.
17. Vastu correction (if required).
18. Guidance on laying the foundation ritual.
19. Supporting the construction process during the construction stage.

AppliedVastu.com

Preparation of land boundary drawings.

The first step in Vastu planning and design is to prepare a land boundary drawing. This requires taking precise measurements. To create an accurate land boundary drawing in AutoCAD, you need to measure all sides of the land and its diagonals.

Preparation of land boundary drawings.

Determination of vastu direction using
Google Map & Drafting Software

The second step is the accurate determination of geographical directions. To ensure the correct geographical directions according to Vastu, use Google Maps location and drafting software for unbiased results. Magnetic North may be inaccurate due to local attractions and the presence of electrical and iron substances at the time of reading.

1 AYA (PROFIT)

2 VAR (DAY)

3 ANSHA (PARTS)

4 DRAVYA

5 VYAYA (LOSS)

AppliedVastu®

6 NAKSATRA

7 TITHI

8 YOG

9 AAYU

CALCULATION FOR AYADI

1 AYA (PROFIT) = REMAINDER OF

$$\left[\frac{\text{PERIMETER} \times 9}{8} \right]$$

2 VAR (DAY) = REMAINDER OF

$$\left[\frac{\text{PERIMETER} \times 9}{7} \right]$$

3 ANSHA(PARTS) = REMAINDER OF

$$\left[\frac{\text{PERIMETER} \times 6}{9} \right]$$

4 DRAVYA = REMAINDER OF

$$\left[\frac{\text{PERIMETER} \times 8}{12} \right]$$

5 VYAYA (LOSS) = REMAINDER OF

$$\left[\frac{\text{PERIMETER} \times 3}{8} \right]$$

6 NAKSATRA = REMAINDER OF

$$\left[\frac{\text{PERIMETER} \times 8}{27} \right]$$

7 TITHI = REMAINDER OF

$$\left[\frac{\text{PERIMETER} \times 8}{15} \right]$$

8 YOG = REMAINDER OF

$$\left[\frac{\text{PERIMETER} \times 4}{27} \right]$$

9 AAYU (AGE) = REMAINDER OF

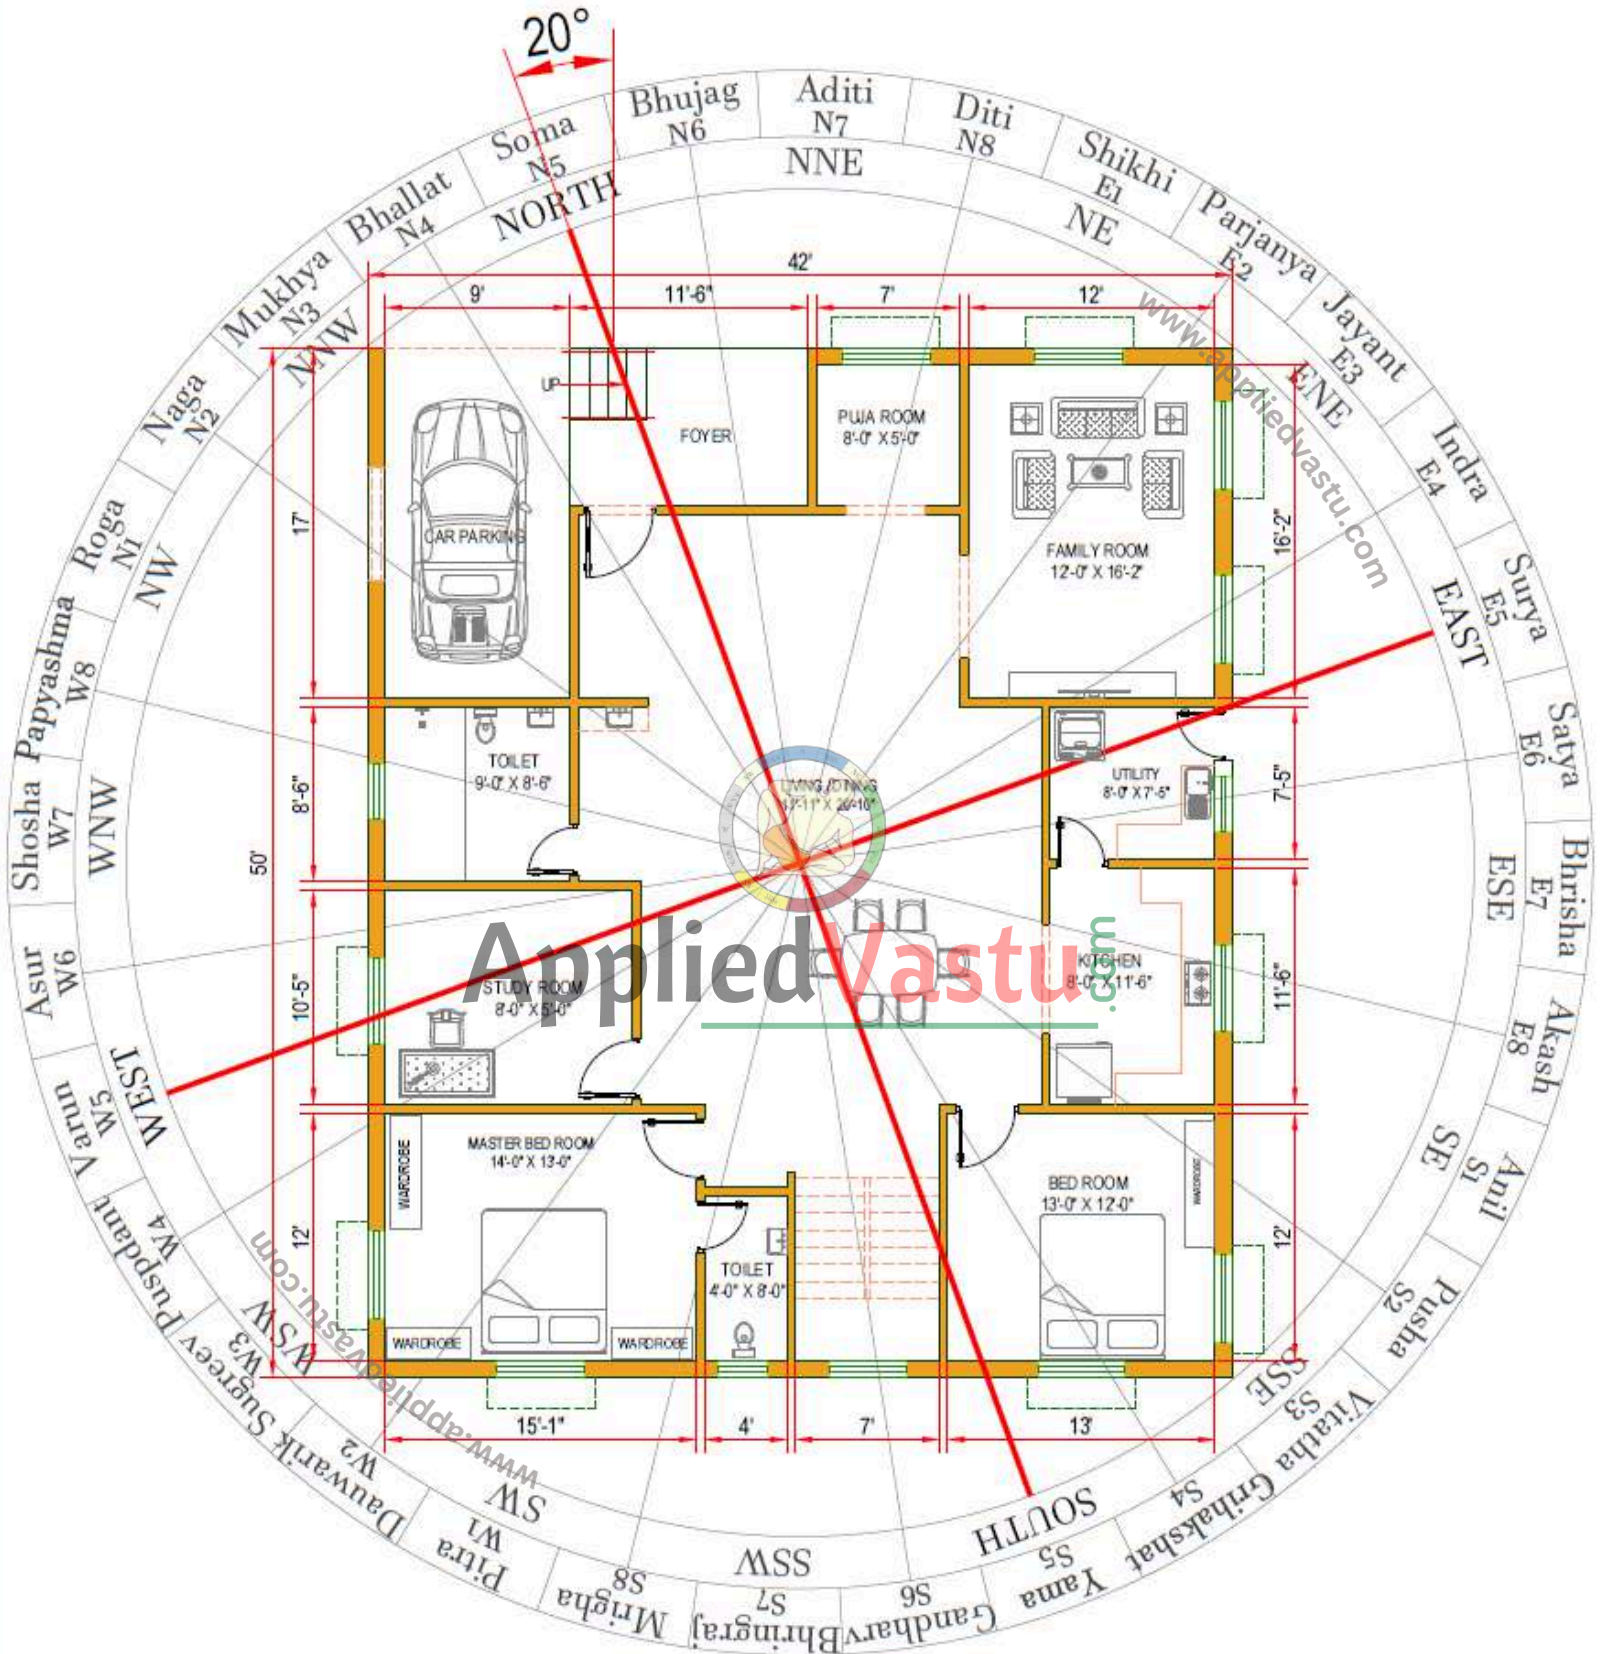

$$\left[\frac{\text{PERIMETER} \times 8}{120} \right]$$
